* After adjustment of Rs. 31.75 lacs on account of depreciation in terms of Schedule II of the Companies Act, 2013, the balance of surplus in Statement of Profit and Loss was Rs. 73.27 lacs as on 31st March, 2015.

OPERATIONS

During the year under review, net sales decreased to Rs. 2314.51 lacs, as compared to Rs. 4387.12 lacs in the previous year.

Transfer Division has registered de-growth to an extent of 47.78%, driven primarily by the setting up of captive decal plants by decal users.

In the Decorated Tile Division, the de-growth was to an extent of 46.28% due to unfavourable trends against third fired decorated tiles.

The performance of your Company was adversely affected mainly on the account of the following reasons:

- Evolution of Digital Printing on Basic Tiles against Screen Printing in Decorative Tiles. The proliferation of Digital Printing on Tiles and other medium like Glass, Resin, Steel, Aluminium and Sand Blasting competed against our Designer Tiles also affected our business. Most of the units in the un-organized sector have had to close down owing to this sudden change in trends. Even organized units are shifting to alternatives of printing, which may be a small reprieve, but cannot compensate for the lost market in ceramic tiles segment.
- Setting up of Captive Decal Plants by Decal Users.
- Copying of our products by local suppliers.
- Rising cost of inputs, energy and transportation have also affected the financials of the Company.
- Design Obsolescence in designer tiles.
- This sector poses threats primarily at the entry level bulk selling products thus impacting topline.
- Disruptive technological changes resulted in unfavourable trends against third fired decorated tiles.

All these above reasons collectively resulted in adverse business scenario and thereby the Company's loss gradually accumulated at Rs.498.81 lacs as at the end of financial year ended 31st March, 2016.

SCHABLONA INDIA LIMITED

To overcome these difficult situations, constant efforts are being made by the Company to equip itself with new range of products by launching them periodically and in synergy with the trends which is expected to bring increased revenue and profits in the Company.

Further, your Company is also focusing on Creative Concepts in Decorated / Ornamented Tiles and Decals in order to increase its market share and taking various initiatives to equip our Design Development Department to meet the requirement by different methods for facing challenges by Decal users engaging in manufacture of decorative tiles themselves.

MARKET AND FUTURE PROSPECTS

Ceramic Transfer Sheets (Decals)

Setting up of Captive Decal Plant by Decal Users affected our business adversely. Despite that, good responses from buyers in higher segment for Quality Decals are expected to receive which may not increase the volume but may show some positivity in the bottom-line. Your Company is expected to maintain its hold on premium segment of Transfer market through its precious metal base specialised Decals with Schablona's edge on designing.

Decorated Tiles

Digitally printed Highlighters, Motifs and Murals dominated the mass market leaving little scope for decorated tiles in that segment. Fortunately, our move towards Creative Concepts in Decorated / Ornamented Tiles by means of different methods to feed the better end market is expected to gain greater acceptance and the vertical is also expected to show a growth during current financial year onwards.

Trading

Competition with Mainstream Tiles Giants affected this segment adversely forcing us to move towards trading of better end conceptualised tiles by different methods of Cutting, Water-Jet, third fired tiles, Sand Basting, PVD etc. with better realisation.

Revival Strategy

- Your Company is responding to the aforesaid challenges by undertaking various initiatives for improving the financials of your Company by adding new customers and increasing share of Decal consumption of each buyer and also making efforts to reach out to small buyers for its products.
- The Transfer division is facing major challenges from captive manufacturing facilities put up by major crockery manufacturing unit, but constant efforts are being made by turning to its core competency of bringing out creative designs and presenting to these manufacturers and thereby trying to retrieve the share back.
- With the launch of big Wall Tile range, a growth in the Trading vertical is expected to be achieved. Efforts are being made for addition of new independent dealers for improving sales of our manufacturing verticals. The brand "Keraspana" is continuously gaining acceptance and the trading vertical continues to grow but there is huge pressure on margins. This division is significantly contributing for better utilization of decorative tile manufacturing facility.
- A High end Product range "Shapes" has been introduced which is based on the various cutting involved by water-jet and Linear using Glazed Vitrified Tiles (GVT) and other value added Tiles. The focus of selling will be specifically through the "Schablona Plus" counters.
- Designer Tiles being a fashion product, design obsolescence is a burning issue for this business. Your Company is continuously organizing itself to go mostly for made to order manufacturing to combat this problem, and making constant efforts to strengthen its forecasting methods to be closer and in sync with market changes.
- Your Company is taking effective steps for making improvement in efficiency, cost cutting and price adjustments where ever possible.
- Management seeks to ensure that there exists in place adequate internal control systems to constantly ensure steps being taken by the Management to improve the turnover and financials of your Company.

MANAGEMENT DISCUSSION AND ANALYSIS

Operating results for the period, market and future prospects have been discussed in the Directors' Report. A further overview of Company's business by the management with a discussion on the Company's areas of strength and weakness, the opportunities that are available and the threats and concerns that are being experienced are given below.

Industry Structure & Development

Even though construction Industry is in a positive growth trend yet, Decorated Tiles Industry is again going through a major upheaval like few year back. Widespread proliferation of digital printing on ceramic tiles is again usurped the third fired decorated tiles business, most of the units in the unorganised sector have had to close down owing to this sudden change in trends. Even organised units are shifting to alternatives printing which is a small reprieve but cannot compensate for the lost market in ceramic tiles segment.

Acceptance of brand "Keraspana" is continuously gaining acceptance and the trading vertical continues to grow but there is a huge pressure on margins, this division is significantly continuing contributing to better utilization of decorative tile manufacturing facility.

A High end Product range "Shapes" has been introduced which is based on the various cutting involved by Water-Jet and Linear using GVT and other Value added Tiles. Focus of selling will be specifically through the "Schablona Plus" counters.

Transfer division is facing challenges from captive manufacturing facilities put up by major crockery manufacturing units but Schablona has turned to its core competency of bringing out creative designs and presenting to these manufacturers and thereby trying to retrieve the share back. New High end Crockery decorating units are throwing open new opportunities and Schablona is all set to tap into them.

Risk Factors and its Mitigations

- **Obsolescence of Designs:** Designer Tile being a Fashion Product, Design obsolescence is a burning issue for this business. The Company is continuously organizing itself to go mostly for made to order manufacturing to combat this problem, and is strengthening its forecasting methods to be closer and in sync with market changes.
- **Rising Cost of Inputs, Energy & Transportation:** All the three factors have a major bearing on the profitability; Company is taking effective steps towards improvements in Efficiency, Cost cutting and price adjustments wherever possible.
- **Competition with Un-Organized Sector:** This sector poses threats primarily at the entry level bulk selling products thus impacting topline, the Company is working to fight this challenge by leveraging its capabilities to produce better designs through its state of the art studios and delivering high quality products using advanced machineries at competitive prices.

Internal Control Systems

Budgetary system of control stands implemented and all efforts for full compliances are being made. An internal group of department heads working as Schablona Strategic Group examines, discusses every new initiative or expansion and suitable decision is taken thereafter. Regular audit of systems & accounts of the Company is carried out by the Internal Auditor and it is ensured that Internal Control Systems are adequate and reliable and there is proper compliance of all regulations & obligations. It has also been ensured that all data necessary for an effective internal control and analysis are available at various levels of management.

The Company continues to have cordial relations with its staff & workers who are continuously being trained to acquire and develop necessary skills for conducting business of the Company in a better way. The Company has around 157 employees as on 31.03.2016. Industrial relations during the year continued to be cordial.

SCHABLONA INDIA LIMITED

Annexure 'B' to the Independent Auditor's Report of even date on the Financial Statements of SCHABLONA INDIA LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of SCHABLONA INDIA LIMITED ("the Company") as of 31st March, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the The Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable

SCHABLONA INDIA LIMITED

detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.
