MANAGEMENT DISCUSSION AND ANALYSIS

Operating results for the period, market and future prospects have been discussed in the Directors' Report. A further overview of Company's business by the management with a discussion on the Company's areas of strength and weakness, the opportunities that are available and the threats and concerns that are being experienced are given below.

Industry Structure & Development

Growth in Construction Industry was stagnant hence Decorated Tiles Industry is also going through a major upheaval like few year back. Technological Development in digital printing on ceramic tiles is continuously affecting the third fired decorated tiles business. But as more Wall Tile Plants in the vicinity are coming which will give a better opportunity to 3rd Fire manufacturer like us for the particular segment of society which is growing currently.

Conceptualised Product range by the fusion of various method of value addition like Water-Jet, Sand Blasting, 3rd Fire etc. will re-assure a significant contribution and better utilization of decorative tile manufacturing facility.

Requirement of Quality Decals in the market where our Design Supremacy is established is slowly growing and good response from such user is expected in coming time due to impact of Goods and Service Tax (GST) which will give an edge to Organised Sectors like us. Few more manufacturer of Tableware are being established under Make in India programme and our discussion on Decal is going on with a good business outcome this year.

Impact of GST will be a winning factor for organised sector like us as either un-organised player will streamline their business as per the government norms or they will disappear from the market.

Risk Factors and its Mitigations

- **Obsolescence of Designs:** Designer Tile being a Fashion Product, Design obsolescence is a burning issue for this business. The Company is continuously organizing itself to go mostly for made to order manufacturing to combat this problem, and is strengthening its forecasting methods to be closer and in sync with market changes.
- **Rising Cost of Inputs, Energy & Transportation:** All the three factors have a major bearing on the profitability; Company is taking effective steps towards improvements in Efficiency, Cost cutting and price adjustments wherever possible.
- **Competition with Un-Organized Sector:** This sector poses threats primarily at the entry level bulk selling products thus impacting top-line, the Company is working to fight this challenge by leveraging its capabilities to produce better designs through its state of the art studios and delivering high quality products using advanced machineries at competitive prices. Further, with introduction of GST, the Company is expecting to be better placed in its segment.

Internal Control Systems

Budgetary system of control stands implemented and all efforts for full compliances are being made. An internal group of department heads working as Schablona Strategic Group examines, discusses every new initiative or expansion and suitable decision is taken thereafter. Regular audit of systems & accounts of the Company is carried out by the Internal Auditor and it is ensured that Internal Control Systems are adequate and reliable and there is proper compliance of all regulations & obligations. It has also been ensured that all data necessary for an effective internal control and analysis are available at various levels of management.

Annexure 'B' to the Independent Auditor's Report of even date on the Financial Statements of SCHABLONA INDIA LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of SCHABLONA INDIA LIMITED ("the Company") as of 31st March, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the The Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable

SCHABLONA INDIA LIMITED

detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note issued by the ICAI.
